

DEBAJ Industrial Services W.L.L. is committed to supply safe, reliable, economic products and services which are suitable for intended use, conforming to the requirements specified by the Customer and meeting the statutory and regulatory requirements.

Each supply is to serve as a recommendation for future business transaction and enhance customer satisfaction through a risk/opportunity based approach.

Customer satisfaction is measured by the organization, reviewed and appropriate steps are taken to ensure continual improvement in the effectiveness of the Quality Management System.

To achieve the above, measurable quality objectives have been established at all pertinent functions of the company and these objectives shall be reviewed from time to time.

Our principal goal will therefore be to gain and maintain the confidence and trust of all our stakeholders.

The Quality Management System shall be reviewed periodically for its continuous suitability, adequacy and effectiveness.
